

Polo School District Virtual Courses

Introduction

Because virtual instruction can be an effective education option for some students, the district may offer virtual courses to students through district staff or by contracting for those services as part of the district-sponsored curriculum. In addition, eligible students may enroll in virtual courses offered through the Missouri Course Access Program (MOCAP). The district will accept all grades and credits earned through district-sponsored virtual instruction and MOCAP.

The district will pay the costs of a virtual course only if the district has first approved the student's enrollment in the course as described in this policy. Even if a student or his or her parents/guardians pay the costs for a virtual course, the student or parents/guardians should meet with the principal or designee prior to enrollment to ensure that the course is consistent with the student's academic and personal goals.

The district is not required to provide students access to or pay for courses beyond the equivalent of full-time enrollment. The district will provide supervision for students who take virtual courses in district facilities but will not provide supervision for students taking virtual courses offsite.

Students taking courses virtually are subject to district policies, procedures and rules applicable to students enrolled in traditional courses including, but not limited to, the district's discipline code and prohibitions on academic dishonesty, discrimination, harassment, bullying and cyberbullying.

Enrollment

The superintendent or designee will establish open enrollment periods and registration deadlines for students to enroll in virtual courses offered by the district or through MOCAP. These enrollment periods and registration deadlines will be strictly enforced unless the superintendent or designee determines that an exception is warranted due to circumstances such as a change in a student's health or the long-term suspension of a student. Enrollment periods and registration deadlines must align with the district's academic calendar and assessment schedule to the extent practicable.

A student or parent/guardian must notify the student's principal or designee before the student may enroll in a district-sponsored virtual course or a MOCAP virtual course through the district. The student will be enrolled unless the principal or designee, in consultation with the student's parents/guardians and relevant staff, such as the school counselor or district special education director, determines that there is good cause to refuse the student enrollment in the course. For enrollment in a MOCAP course, good cause is limited to situations where it is not in the best educational interest of the student to enroll in the course.

Students or parents/guardians who disagree with the principal's or designee's determination about a MOCAP course can appeal the decision to the Board of Education and the Department of Elementary and Secondary Education (DESE) as detailed later in this policy. For all other virtual courses, students or parents/guardians may appeal the decision to the superintendent or designee, and the superintendent or designee's decision will be final. The superintendent or designee is authorized to consult the district's attorney prior to making a decision.

Best Educational Interest Consideration

District staff should minimally consider the following when deciding whether a virtual course is in the best educational interest of a student but may consider other factors not listed.

District Course Availability

1. If the course is offered onsite by the district, are there extenuating circumstances that make it difficult or impossible for the student to take the onsite course offered by the district?
2. If the course is offered onsite by the district and the student is able to take that course, what are the reasons the student wants to take the virtual course?

Virtual Course Characteristics

1. Does the course meet or exceed district curriculum standards and graduation requirements?
2. Does the course align with the student's career goals and the student's individual career and academic plan (ICAP)?
3. If the course is for remediation, will it personalize instruction to the student's specific needs?
4. Is the district aware of any complaints or concerns regarding the quality of the course, and have those complaints or concerns been resolved?
5. Has the district had difficulty working with the course instructor or provider to ensure a student with disabilities receives the required accommodations or modifications?

Student Skills Necessary for Success in Virtual Courses

1. Has the student demonstrated time-management skills that indicate that the student is capable of submitting assignments and completing course requirements without reminders?
2. Has the student demonstrated persistence in overcoming obstacles and a willingness to seek assistance when needed?
3. Has the student demonstrated verbal or written communication skills that would allow the student to succeed in an environment where the instructor may not have sufficient nonverbal cues to indicate the student's level of understanding?
4. Does the student have the necessary computer or technical skills to succeed in a virtual course?

Other Relevant Factors

1. Does the student have adequate access to computers, Internet and other necessary technology resources to participate in a virtual course and complete assignments?
2. If the student has previously attempted a virtual course and struggled with or failed the class, have the issues that caused the student to struggle or fail been identified and addressed?

Appeals

If the principal or designee determines that it is not in a student's best educational interest to take a virtual course, the student and the parents/guardians will be notified in writing, provided an explanation for the decision and informed that the student or parents/guardians may appeal the decision to the Board. However, if the student is receiving special education services, the student's IEP team will make the final decision regarding student enrollment in a virtual course in accordance with federal law, and the decision must be appealed through the special education process rather than through the Board.

If the student or parent/guardian appeals to the Board, the principal or designee will provide the Board written reasons for denying the student's enrollment, and the student or parent/guardian will provide written reasons the student should be allowed to take the course. Both documents will be retained by the Board and will be incorporated into the minutes. In addition, the student, parents/guardians and the principal or designee will be allowed to present their arguments at a Board meeting.

The appeal to the Board shall be held in closed session. The Board will consider the information presented and release a written decision within 30 calendar days of the meeting. The student or parents/guardians may appeal the decision to DESE. The appeal to DESE must be filed within seven days of the Board's final decision.

Missouri Assessment Program/End of Course Examinations

Students are required to take state-required MAP/EOC examinations administered by the district regardless of whether the course for which the examination is required was taken virtually or in the traditional classroom.

Monitoring and Reporting

The district will monitor the progress and success of students enrolled in MOCAP courses. The district may remove a student from a course if it does not meet the educational needs of the student. The district may terminate access to a course or refuse to allow students to enroll in a MOCAP course if the district determines that the course is not meeting the educational needs of the students enrolled in the course.

All concerns regarding the quality or delivery of a MOCAP course will be reported to DESE. The district may consider concerns regarding the quality of a course when making approval decisions for other students. In addition, the district will consider recommendations made by DESE regarding continued or future enrollment in MOCAP courses.

Transfers

The district will accept transfer credits students earn by successfully passing approved MOCAP courses if the course provider gives the district an official record of the completed course and the grade earned. Students who transfer to the district while enrolled in MOCAP courses will be allowed to continue enrollment in those courses even if the course provider is not one used by the district.

Polo School District's Preferred Providers are Edmentum and Acellus.

Courses are also available through MOCAP at: <https://mocap.mo.gov/catalog/>

Enrollment Dates

Fall Semester: August 12 - August 26 (2020)

Spring Semester: December 14 -18 (2020) - returning students, January 4 - 8 (2021) - new students
